Writing

By Natalie

**Writing is not only writing sentences.  
Writing is the pencil scratching paper.  
Erasers sliding on the flaky white sheet.  
The feet of the young writer flat on the floor.  
Notebooks moving to the beat of the pencil.  
The pens ink squirming out of the ink tube.  
Glue, crayons and markers working very hard  
to make the project perfect.**

**Writing is your opinion.**
